

Date	8 October 2019
Event name	H2020 RES in Buildings Clustering event organised by INEA - "BE Horizons cluster"
Event description	The event was organized by INEA to promote active collaboration, at both technical and dissemination levels, of eight projects funded by the H2020 programme in the field of Renewable Energy Technologies in Buildings. In particular, during the meeting a cluster of 9 ongoing projects, called BE-Horizons, was formed by: Hybrid-BioVGE, GEO4CIVHIC, Making city, SWS-Heating, Tri-HP, Res4Build, Ideas, Recognition, SolBio-Rev.
Location	Brussels-Belgium
SolBio-Rev participants	NTUA
Nature of participation	Presentation
Number of attendees	11
Feedback & added-value	BE-Horizons cluster created to promote active collaboration, at both technical and dissemination levels, of eight projects funded by the H2020 programme in the field of Renewable Energy Technologies in Buildings. The project representatives of the BE-Horizons cluster have agreed to carry out an active collaboration, at both technical and dissemination levels, with the objective to increase the impact of their projects. Namely, the added value from the event can be concluded to the following: • Interaction with partners from other European projects of similar subject. • The knowledge and the ideas gained during the event will enhance the implementation of innovative features and better results within the framework of the project. • Interaction with group members, realizing the next steps for the further exploitation of the concept.
